November 2010

November 2010

Although October had five weeks it seemed to pass us by very quickly. Hopefully the children enjoyed Halloween and all the art and singing activities we did as well.

As we move into November we will be looking at the many ways in which we travel. Concepts this month will include ways we move people and /or things -- ie water, air and ground.

For math concepts this month we will be graphing "how we get to school". From this we will be counting and sorting various transportation modes. We will also create an "All Aboard Number Train" which will allow the kids to count to 7.

This month I will introduce a language readiness activity which will include creating our own transportation story books.

Art activities will include creating modes of transportation such as airplanes, boats, cars and trucks, to name a few.

Hopefully November will be as successful as October was.

Items Needed

Please help us out by keeping toilet rolls and papertowel rolls for our art activities. We will be using them for making boats and rafts.

Please bring them in by November 11th, 2010.

Fieldtrip Fire Station

Dear parents.

We would like to have your opinion on a fieldtrip proposal. With your approval (and help) we would like to venture to a fire station to show the kids the fire trucks. This will only be possible if every child has an adult and all parents agree. The proposed date for the field trip will be Thursday November 25th.

Please sign and date the permission form and hand it back to me by November 9th, 2010.

Thank you in advance.

monday	tuesday	wednesday	thursday	friday
